

John Steinbaugh BS

Position: VP & Director of Strategic Development

Institution: RevMedx, Inc

Personal Statement:

I want to thank everyone for my consideration for member-at-large. I served as an 18D for 20 years to the best of my ability. I had the privilege of serving my country in a SMU as an assault medic, deploying on multiple tours to the Middle East. During these tours I have treated countless wounded American and host nation forces and have succumbed to being a patient on several of these deployments. This experience has been invaluable later in my career, from my time as a Combat Developer in SOCOM to my current position in my civilian life as a medical device designer for combat medicine. Since I have retired, I have kept my focus on the needs of the medic by staying engaged with them from the junior 68W to the seasoned 18D. Those that know me will tell you that I do not hold back my opinion on what is best for the medics and I will be a strong voice for them on this board. As a member-at-large I will be a strong advocate for weeding out topics that do not belong at the SO MA conference and keeping SOMA focused on combat medicine, PFC, training and education and the best interests of the individual medics. Thank you

Length of membership: 15

Board positions held and year(s) served:

Committee(s), position(s) and year(s) served:

SOMA Membership Committee 2018-Present.
